

URBANISTAS ROTTERDAM EXCURSION TO VIENNA Frauen-Werk-Stadt

We are really happy to present the program for the first international excursion of the Urbanistas Rotterdam to Vienna! Last months we have been busy doing research and contacting the people working there and it has been truly inspiring. The city of Vienna has been a frontrunner and hotspot for feminist ideas, firstly introducing gender mainstreaming policies and developing pilot projects of urban development focusing on design for women. All of that already from the 90's!

We have prepared a compact, but inspiring excursion for you and we hope you can join us in the spring.

We would like to be fully transparent about the costs with you, believing in mutual trust and understanding. Therefore we have prepared an estimated budget and first detail of the programme that you can find in this flyer. We are not profiting in any way on the event, organising it for all interested Urbanistas working in the spatial field. The excursion is for ladies only and we made a limit of places for 18 people.

Wir sehen uns in Wien!
